Cummings, a banker of the former place.

A Fatal Duel.

Dallas, Tex., Sept. 26.—Fifteen years ago Geo. Hollenbeck and Wm. Stratton quarreled in Palmyra, New York. Yesterday they met near Carrizo Pass and determined to settle the old feud, and they went into a darkened room and fought a duel. Stratton fired four times, and Hollenbeck then fired, killing Stratton instantly. Hollenbeck was quiet, and deluded his antagonist, who thought he caught him in a wrong corner.

FROM THE FRONT.

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT.]

THE FRONT, Sept. 21.

Dr. Glass, formerly of Portland, passed through with his family on their way to Missoula.

Mrs. Littlefield and Miss Lizzie Littlefield are visiting the doctor at medical headquarters.

Mr. T. J. Schmidt, formerly head steward at Fort Spokane, has accepted a like position with Dr. Littlefield.

J. Gorman, watchman on Pack river bridge, while fastening a bolt, was precipitated a distance of forty feet, breaking his nose.

About three weeks ago an unruly horse bit John Corwell on the middle finger of the right hand, fracturing the bones and lacerating that member badly.

G. Gibson, a laborer, while unloading timber at the Trout creek bridge on the 18th inst., had the misfortune to get his thigh bone fractured by the load falling on him.

Dr. Littlefield is slowly improving from his serious attack of illness. Dr. Calbreath of Lafayette is in charge of the hospital at present and is also in waiting on Dr. Littlefield.

John Kennedy, the unfortunate man who had a car wheel pass over his right foot about three weeks ago, suffered amputation of that member last week. Dr. J. F. Calbreath, of Lafayette, operating.

Gassy Collins, of whom mention was made in the columns of THE OREGONIAN some ten days ago as being the leader of the Sand Point row, now languishes in jail at Rathdrum. Forty-five more days for him to repent.

J. D. Thompson was struck by a falling tree on the 21st inst. at Beaver creek, and has a severe bruise on his left cheek and a black eye. He and others who met with the accidents reported above are being cared for at the hospital quarters.

Word has just reached the hospital that a man, whose name could not be ascertained, had during a drunken spree fallen asleep in a tenantless shanty at Rock Island, which took fire, burning the man very severely and perhaps fatally.

S. H. Kelly, one of the gentlemen that was unpleasantly mixed up in the Sand point imbroglio a few days ago, came to the hospital with his head in a chaotic state from the effects of a club promiscuously played in the hands of his opponent.

R. J. Weeks and Joe Campbell discovered a ledge of coal resembling coke and rich in oil on Kootenai river, near the British line not long since. The coal burns with a very brilliant light. They will soon send some down to Portland with the view of having it thoroughly tested. They state there is a heavy vein of it and no doubt will be of great value. The exact location of the vein has not been divulged.

On the 17th inst a painful accident befell C. R. Phelps, a carpenter working on the bridge at Trout creek. While working on the bridge he missed his footing and fell a distance of thirty-five feet. He sustained injuries about his nose which may interfere with his matrimonial prospects. His shoulders and limbs were bruised but fortunately no bones were broken.

Sand Point has the largest woodshed perhaps on the line of the N. P. R. R. It will hold some fourteen hundred cords. Assistant Superintendent Fordyce has a gang of white men and Chinamen at work clearing and cutting down small timber about the depot grounds at the point, which is sawed into suitable lengths and stored into the mammoth shed for winter use. A sawing attachment has been arranged with the capacity of cutting a cord every ten minutes. The place presents a very lively appearance at that point. Many new buildings are being erected at this place and citizens and merchants feel confident that Sand Point will be a place of more than ordinary importance. Preparations are being made to arrange houses for winter use and the carpenter is busy in weatherboarding the same. Three firms are in the mercantile business and report doing well. Six eating houses supply the hungry and some seven saloons slake the thirst of the drinker and give the sheriff of Kootenai county plenty of business. A majority of the citizens are very much in favor of annexation of this county to Washington territory provided she becomes a state. The nomination of Hon. T. H. Brents for congress from Washington territory gives entire satisfaction.

The Lowell, Mass., Courier says: The healing properties of St. Jacobs Oil are becoming better and better known every day, and its sale is increasing enormously.

PACIFIC COAST NEWS.

CALIFORNIA.

Arrival of the Pioneer.

San Francisco, Sept. 26.—The new steam tug Pioneer, intended for service at the mouth of the Columbia river, arrived here to-day from Philadelphia. She accomplished the voyage in eighty-seven days. The tug would have continued direct to Portland, her destination, had her supply of coal not been exhausted. On coaling she will proceed at once to Portland. The vessel is all iron, 90 feet long, 18 feet beam and 10 feet hold. The engines have 250 horse power and her registered capacity is 161 tons. She is a very handsome, staunch looking craft and is capable of doing excellent service. At ordinary rate of speed the steamer consumes two and a half tons of coal every 24 hours.

Supervisors Nominated.

San Francisco, Sept. 25.—The ward presidents of clubs at the republican convention nominated to-night the following members of the board of supervisors: Twelfth ward, B. P. Moore; eleventh ward, Aaron Doud; tenth ward, J. H. Small; ninth ward, W. B. Larseatere; eighth ward, Samuel Irwing. Convention adjourned until to-morrow evening. From the general feeling of the convention as expressed in all discussions concerning credentials, it seems a foregone conclusion that Mayor Blake will be renominated.

County Nominations.

San Francisco, Sept. 26.—The republican county convention last night made the following nominations: Sheriff, John Sedgwick, the present incumbent; assessor, Alex. Badlam, present incumbent; tax collector, L. B. Mastick; treasurer, J. H. Widber, present incumbent; county clerk, David Wilder, present incumbent. The convention then adjourned without making more nominations.

Anti-Debris Convention.

Sacramento, Sept. 26.—The anti-debris convention met at 2:30 P. M. at the capitol, with quite a large attendance. Geo. Cadwallader, at the request of the executive committee, called the convention to order and addressed it. He thought it would be improper to make a ticket for county or legislative officers yet. Every delegation should have that power conferred on it to be expressed by a two-thirds vote. More than a mere majority of votes of the convention ought to be required to nominate. Affiliation should be sought with all organizations in harmony with this. We have no quarrel with quartz or drift mining, and propose no lawsuits with them. The secretary read the call for a convention and also the list of delegates.

ACCIDENTS.

The Sells Brothers Accident.

Lancaster, Ky., Sept. 26.—Coroner's inquest on the bodies of the men killed by the wreck of Sells Bros. Circus train developed the fact that Sells Bros. removed a number of brakes from the train in order to facilitate loading of wagons, leaving only four, which were insufficient, so that in going down a heavy grade the train became unmanageable and ran at a high rate of speed, probably causing a spread of the rails. Three men were instantly killed, two fatally hurt and twelve seriously injured.

Trains Wrecked.

New York, Sept. 26.—The way train on the Pennsylvania railroad which left Newark for Jersey City last night was run into at a curve just below East Newark station by a Lehigh valley train and both trains completely wrecked. Passengers had great difficulty in getting out of the cars. Some of them are seriously injured.

Fall of a Floor.

Pittsburg, Sept. 26.—To-night the west gallery of the exposition building gave way and a number of persons together with a piano and two organs, were precipitated to the floor beneath, a distance of 25 feet. Seven persons were injured, two probably fatally.

Smothered to Death.

Columbus, Sept. 26.—Jacob Rousely, a farmer near Bay's reform school at Lancaster, while plowing a field this morning fell on his face in an epileptic fit, got his mouth full of earth and smothered to death.

Drowned.

St. Catharines, Ont., Sept. 26.—Three young men, Chalkson, Cregar and Hagan, upset their boat on the canal to-day. Chalkson and Cregar were drowned.

YELLOW FEVER.

Washington, Sept. 26.—Total cases of yellow fever at Brownsville thus far, 1870; deaths, 150. All communication is cut off with infected districts of Mexico. Cases at Pensacola, 541; deaths, 41. Quarantine will be established around Pensacola, if the governor of Florida requests. No new cases reported and one death.

Brownsville, Sept. 26.—Water is disappearing from the streets. Five new cases at Point Isabel today. Dr. Murray of the marine hospital at Arroyo Colorado is perfecting a cordon of communication with [illegible], to be opened under supervision of the health officers. Fever in Matamoras is considered nearly over. One death since yesterday.

Brownsville, Sept. 2[illegible].—No fever on the Texas side from a point 30 miles above this place. Fever is increasing at Reynosa, Camargo and Mier, with great mortality.

Pensacola, Sept. 26.—The fever is not subsiding at all, but rather on the increase. Much destitution prevails among the poor classes.

Sixty new cases and two deaths to-day. An increase of fever is shown, and the means of affording relief are so inadequate that the board of health has called a meeting of physicians with a view of systematizing methods of disinfecting and affording relief.

Compelled to Quarantine.

Washington, Sept. 26.—The Spanish steamer Rita arrived at the wharf of Newport News without inspection by the quarantine officers, and the acting secretary telegraphs the civil authorities should order the vessel to quarantine, and if she refuses a war vessel [illegible].

Yellow Fever Suspected.

[illegible] N. J., Sept. [illegible].—A [illegible] yellow fever [illegible] New York [illegible].

Key West, Fla., Sept. [illegible].—A most brilliant comet has been visible here to the naked eye for ten days past about 4 o'clock A. M.

GENERAL WOLSELEY TAKEN SERIOUSLY ILL IN CAIRO.

Baker Pasha will Reorganize the Egyptian Army—The Porte Demands of England an Explanation Concerning her Future Action.

SPECIAL DISPATCHES TO THE OREGONIAN.

Cairo, Sept. 26.—A grand reception was held to-day by the khedive. Near a thousand representatives of different villages were present. The khedive refused admittance to many implicated pashas and beys, many of whom came to express loyalty, and warned ulemas and other high personages that they would be severely punished if they relapsed into disloyalty. The principal British officers with their staffs were present. Gen. Wolseley, however, was indisposed and unable to attend the ceremony. The presentation to the general of a decoration by the khedive did not take place.

The khedive yesterday evening drove for an hour through illuminated streets and was well received. He bestows upon Gen. Wolseley the grand cordon of the order of Osmanli.

Amnesty to be Proclaimed.

Cairo, Sept. 26.—Gen. Wood has arrived and it is stated the khedive will shortly issue a proclamation granting general amnesty to all rebels except about six who will be tried for their lives as being implicated in the massacre and conflagration at Alexandria.

Celebrating the Khedive's Return.

Alexandria, Sept. 26.—Flags were displayed yesterday in Benha, Tantah and Benhowi, in celebration of the khedive's return to Cairo. One hundred and fifty thousand persons witnessed the khedive's entry. DeLesseps' house was without decoration.

Egyptian Notes.

Cairo, Sept. 26.—It is expected the guards and marines will leave here Friday.

Bedouins have cut the fresh water canal above Nemish.

A review of British troops will be held Saturday.

The khedive's ministers to-morrow discuss appointment of a court martial for the trial of rebels.

The British iron clad Minotaur goes to Aboukir to-morrow to re-embark the marines there. She thence proceeds to Malta and joins the channel fleet.

Arrests of men implicated in the June massacres continue.

Collision on the Ismailia Road.

Cairo, Sept. 26.—By a collision on the railway between Nefische and Mahsameh to-day, ten natives were killed. Gen. Wolseley is suffering from cold and diarrhoea.

Baker Pasha's Plan.

Constantinople, Sept. 26.—Baker Pasha, entrusted with the task of reorganizing the Egyptian army, intends proposing to the khedive that he employ all English officers serving in the Turkish gendarmes.

Baker Pasha in Business.

Constantinople, Sept. 26.—The khedive, with the approval of England, has offered to Baker Pasha the reorganization of the Egyptian army. He accepts the task.

Heavy Punishment.

London, Sept. 26.—Imperial decrees order the father of the king of Corea, to be kept for life under a guard at Hastingfu.

Davitt's Problem.

Dublin, Sept. 26.—A problem is propounded by Davitt for the formation of a gigantic organization whose leading objects are to be improvement of the social and political condition of the Irish and prevention of emigration by obtaining profitable employment for laborers and evicted tenants. The scheme will be discussed at the convention of Irish nationalists. Parnell refuses to sanction the project on the ground that the formation of such an organization would be impossible under the existing coercion act. Egan, Brennan and Kelly desire discussion of the subject.

Dillon's Reason for Withdrawal.

London, Sept. 26.—A Dublin correspondent of the *Times* intimates that Dillon has withdrawn from active political life because he does not fall in with what he considers the milk and water policy of his associates.

An Army Disbanded.

Calcutta, Sept. 26.—Three members of the Salvation army, recently arrived here, have been arrested in order to prevent a riot, which was imminent. Only one of the contingent which arrived here a short time ago is now at liberty.

Germany Favors England.

Berlin, Sept. 23.—It is certain the action of Germany will be very favorable to England in the settlement of the Egyptian question.

A Generous Emperor.

Two restaurants are the only hotel accommodations at present in Colfax. The Thielsen house, a brick hotel, 70x80 feet, three stories high, will be ready for the reception of guests in about a month.

In consequence of the low stage of water in the Palouse the mill at Colfax is only able to run four hours of the twenty-four and flour has grown so scarce that orders have been sent abroad to supply the local demand.

Walla Walla Union: Five cars loaded with granite, from Granite point, on Snake river, passed down Sunday night for Ainsworth, to be used in the construction of the railroad bridge over the Snake at that place. The low stage of the water in that river between Granite point and Ainsworth, preventing the boats from running, necessitated the shipment by rail.

A man named Muscop enticed a 12 year old daughter of R. C. Wilson of Dayton from her home last week, taking her to Walla Walla. The father telegraphed to the marshal of the latter city, who found the girl in lodgings procured for her by Muscop and returned her to her father, who took her back home. Muscop was arrested later and returned to Dayton on charge of abduction.

THE SITUATION AT SALEM.

As the crisis of the contest at Salem approaches patience and firmness on the part of those who are resisting the effort to force J. H. Mitchell upon the people of the state are more than ever demanded. They took their stand in opposition to the claim put forth in this candidate's behalf the claim that he is the only man in the republican party of sufficient ability and worth to be elected to the senate though he is notoriously the most objectionable man that could be presented, not only in personal character but in his political methods. So far they have succeeded in foiling the ambition of the man who is struggling for official place with a more shameless greed than was ever before exhibited in this state. So far, then, they have succeeded in what they undertook. When they are asked to surrender they are simply asked to confess themselves in the wrong in their opposition to the election of the man whom they and their constituents deem especially unworthy of the position. Were they to surrender now their protest would be shorn of all merit. When therefore this shameless beggar for a high public trust—a trust which the people should have the right to confer without the interference of unseemly solicitation—asks them now to come to his support, he simply asks them to commit an act of self-stultification. Their object was to prevent his election. They are preventing it, and with a degree of success quite equal to any expectation they could have entertained. Of course he can't see, trading and bartering politician that he is, that the position of those who oppose him forbids retreat or surrender. They are standing on a solid principle and opposing an unworthy man.

For many days the sole hope of the effort in Mitchell's behalf has rested on the desperate expedient of obtaining democratic votes. Pretending to stand as a "regular" party candidate, he has been unable to unite the vote of his party, and has gone into the democratic camp for aid. He brings into the republican party democratic votes to force a result which republicans refuse to sanction. It is to the credit of democrats themselves that all save a disgraced, repudiated, mercenary few reject with scorn this contemptible solicitation from the man whom the better classes of both parties unitedly oppose. Democrats of the honorable class confidently say he can get no more democratic votes than he has already secured. In that case the effort in his behalf must soon collapse. It is impossible to hold it long where it now stands. Among those who are voting for him are not a few who realize fully the impropriety of persistence in an undertaking which goes against their judgment and which they cannot but perceive will not be sanctioned, under present conditions, by their party or by the people. Among those hitherto voting for Mitchell are several young men who have been held to that line of action by what they have doubtless regarded as an obligation to party. Since they have acted on their convictions we have not been disposed to censure them. Now, however, they have gone as far as the most fanciful regard for party could require, and they would gain general credit and applause by making a public announcement that duty to the country and to their party requires them to find a way of deliverance from the present embarrassing situation. Their party is greater than any man, and should be sacrificed to no man's ambition. The republican members of the legislature can easily agree on a candidate, if the one objectionable man be left out. It is demonstrated to be impossible to unite on Mitchell, and it is time overtures were made for uniting on some one else. Right now is a right good time to add emphasis to rejection of the absurd claim that there is only one man in Oregon who may be sent to the senate of the United States.

H. W. S.

COMMON SENSE ABOUT LABOR.

When once a fundamental principle is discovered it is comparatively easy to build upon it a system of ethics or philosophy. The general mind is prone to neglect fundamental principles and to reason only upon details. It sees the immediate and close, and in trying to right what is wrong it adopts shallow remedies. Capital and labor are alike selfish, and both often look to legal enactments to correct those things which flow from natural causes. The present relations of capital and labor are the outgrowth of the present stage of society and the very best that the existing state of intelligence and self-restraint on the part of the working man and the natural selfishness of the employer will permit. Of course there is a bad adjustment, measured by strict equity, but it is the relatively best. But to correct what is wrong the workingmen have appealed to the legislature and to platforms. Constabulary education, statutory regulation of hours of labor, laws to compel weekly payment of wages, and laws to secure for both sexes equal pay for equal work may be do some good, but far from the good expected. Neither will trades unions, labor organizations, etc., effect the good desired. The fact is the working man must begin with himself. At present he is not sufficiently provident, sufficiently conscientious, nor sufficiently intelligent to make permanent, useful and wholesome reforms. He must first learn the great truth that better forms of industrial organization would grow up and extinguish the forms he regards as oppressive, were such better forms practicable. To learn these better forms and to adjust them the working man must, to survive, imbibe the virtues of intelligent providence and conscientiousness. We admit that the law-making power is on the side of capital and its selfishness has legislated often unjustly. But this has been brought about because capital has greater intelligence and has been more provident. In our industrial age it is the keen eye and ready brain which win. These the workingmen must get if they expect to have an equitable arrangement with their employers. Strikes have proved failures, political conventions, platforms and orders are impotent to make right. The workingman must make up his mind to be more provident, more conscientious and more intelligent, or in the race for life he cannot survive. Reform must begin with the individual man. The workingman must learn to be provident. It is a notorious fact that the employment which pays labor the highest wages, has engaged in it the most improvident workmen. The iron, glass, mining occupations and machine trades, have workmen who live from hand to mouth, and much of the wages is spent in riotous living and sensuality. There is no ambition to save a surplus of their labor as capital—in short to become capitalists themselves. When the Gloucester wagon company of England was organized it was decided to reserve 1,000 shares of £10 each, to be paid out of the men's savings at the rate of £1 every three months. Many of the men earned £2 10s per week. The manager was a working man and interested in having his fellow workmen also becoming interested as stock holders and obtaining a share of the profits of the company. The chairman of the company was also desirous of having the workingmen share holders so as to divide the profits. For all this, after a lapse of a year not a single one of the 1,000 shares was taken up. This is an illustration of a common fact, namely, that workingmen often fail to accumulate capital through sheer improvidence. Labor has grievances and hardships, and sore ones too; but in the struggle for existence the only valuable resources are to be found in industry, in prudence and in the general catalogue of homely virtues, wherein thrift and prosperity for the many can find their only foundation.

Siglin's denial that he was bought was unnecessary. He was not expected to admit it.

THE LUMBER BUSINESS.

With the completion of the Northern Pacific railroad and its branches, the lumber business will soon rise to the rank of one of the most important industries of the northwest. Rapid settlement of the country will create an enormous demand for lumber indeed such demand is already making itself felt. At Portland our local mills can not furnish a supply even for the local demand, and when we have rail connection with Puget Sound we shall certainly draw a good deal of lumber from there. For a long time there has been a demand here for lumber from points south and east, which could not be filled. Walla Walla has taken lumber from Portland when it could be obtained, and so have many towns in Willamette valley. The price of lumber has materially advanced here and at all points, and railway extension is rapidly making a wider market in all directions.

While the great body of the timber of the northwest, and by far the best of it, lies in Oregon and Washington west of the Cascade range, yet there is good timber in localities lying further east, the best of which is probably that lying on the Northern Pacific railroad in Northern Idaho and Western Montana. At this time there is no more promising opening for business anywhere than is afforded by construction of the railroad through this great timber belt. The road opens this timber at once to a great and rapidly growing market, east and west. Enterprise could find no better field than lumber-making in that locality. The timber may be obtained from the railroad company or from the government, or from both, and sawmills could be placed at very eligible points, where timber is abundant and near, and where the lumber could be delivered from the saw directly to the cars. It is safe to say that the advantages thus offered will not long be allowed to pass unimproved.

A recent report on the lumber business of the Pacific coast estimates the whole annual product at 750,000,000 feet, worth at mill prices about $12,000,000. California is credited with 300,000,000, Oregon with $250,000,000, Washington with 200,000,000, and British Columbia with 50,000,000. The saw mills number about 700, and the capital invested in them and in the timber lands needed for their supply is about $10,000,000. This is a business of considerable magnitude, but it is insignificant in comparison with that of the great mills in Michigan, Wisconsin and Minnesota. At Minneapolis alone more lumber is cut than at all points on Puget Sound. Eau Claire, Wisconsin, though by no means the largest lumber-producing point in that region, cuts 250,000,000 feet a year. It is well known, of course, that the timber of the upper Mississippi and Lake states is being very rapidly exhausted. The supply can hold out only a few years longer. In many of the southern states there is yet a good deal of forest, but the timber is mainly of rather inferior kinds. The last great supply of first-rate timber is in western Oregon and Washington.

Dunbar of Washington county only a few days ago told Mitchell himself that if it had been supposed in his county that he would ever vote for Mitchell there would have been no possibility of his election. His constituents will form their own opinion as to the reason of his change to Mitchell, and at the same time will get a new view of Dunbar's character as a man.

H. W. S.

It is about time for the people of Washington, Yamhill and other counties, where there is hardly a Mitchell man, to imitate Lane county in calling meetings to remind their members of the legislature that they are not pleased with being misrepresented. Protraction of the contest a little farther will be very likely to call out such meetings.

H. W. S.

The Mitchell men are now talking about a "dead-lock"—that is, the possibility of no election. If this would bring Mitchell directly before the people two years hence, nothing better could be asked. Not twenty members could be elected who were not distinctly pledged against him.

H. W. S.

Honorable democrats at Salem are making great efforts to preserve the integrity of their party against the advances of corrupt solicitation. It is largely due to them that Mitchell, with all his efforts, is making no gains in the number of his democratic supporters.

FROM THE CAPITAL.

(TELEGRAPHIC CORRESPONDENCE.)

SALEM, OR., Sept. 26.—The vote to-day was a disappointment to the Mitchell lobby, who had been assured by their leaders of a gain of three on the first ballot and of election on the second. To-night is the first time since the fight opened that Mitchell's election has not been promised to-morrow by his friends. The vote on adjournment to-day after the joint ballot was mixed and cannot be counted an advantage for either side. It is the general opinion to-night that there will be no change to-morrow. It is not thought Mitchell can get another democratic vote and certain that the 18 will stand as they have all along. Some of Mitchell's friends are predicting a dead lock throughout the session, though this is by no means probable. Though republicans, they say, will stand out for Mitchell to prevent election of any other man, and they threaten to do it. Such talk, I think, is idle. Situation without new features.

LEWIS RIVER NOTES.

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT.]

Lewis River, Sept. 22.

White clover seed sells at 50 cents per pound, timothy at 8½ cents.

Parties having good milch cows for sale, are asking and receiving $30 to $35 for them.

This is an average year of apples and plums, but pears in quality seem to be below their usual standard of excellence.

For this time of the year the river is unprecedentedly low. The east fork is fordable in some places and navigation of either branch is attended with many perplexities.

The past week a barn filled with hay and various farming implements, owned by Geo. Bratten, took fire and was burned to the ground, nothing being saved but a wagon.

A venturesome cougar was found the other day by James Kinder in a home field, lunching off a porker. That gentleman immediately procured a gun and of course a cougar's scalp.

Work on the new bridge across the East fork is progressing satisfactorily and it is expected it will be completed ready for travel early this fall. The action of the commissioners in cutting its width down to twelve (12) feet, occasioned much adverse comment, that has finally simmered down into an abiding belief that a foot bridge is preferable in point of general accommodation to a skiff.

There is a quiet undertone of interest apparent in local politics, and the workings of our late county convention, that will doubtless awaken to a more lively discussion of the situation, when the people's convention shall have placed before the voters its candidates for office. The attempt of the temperance clique to manipulate the county politics with a view to riding a number of political goats into office over the temperance plea, will cause a considerable bolt in the republican party.

BLOODED TROTTERS.

Closing out Sale of Fine Stock at the Reedville Farm.

A GOOD AVERAGE OF PRICES.

Hambletonian Mambrino Sold for a Song—Several Purchasers Get Big Bargains—Pedro Sold for $265.

The sale of S. G. Reed's blooded trotters at the Reedville farm, yesterday morning, was an unequivocal success and drew quite a large number of visitors, as the weather was fine and the roads good. The auctioneer was A. B. Richardson, of this city, and that energetic individual kept his audience in a good humor all the morning as he rattled off the fine stock in his most eloquent and pathetic manner.

The average prices were large, although several of the choicest ones did not bring what we had estimated. For instance, there is Hambletonian Mambrino sold for $650, and a man cannot go to Stanford's or Haggin's in California and buy as good a stallion for $1500. Oleander, a handsome brown mare, own sister to the stallion, went for the moderate sum of $31 and every colt she can raise will be worth that much at two years old. We append a summary of the horses sold and their prices:

The reason White & Haines, merchant tailors, 205 First st, do such good work at such low rates is that they do all their own work. Neither do they send out any work to Chinamen. This is commendable and our citizens should patronize accordingly.

Noticeable Exhibits.

THE DOMESTIC SEWING MACHINE.

The Domestic Sewing Machine Co., represented by Mr. E. F. Heroy, make a very excellent exhibit. Their stand is located on the first floor near the center of the main hall, and is almost constantly surrounded by a throng of visitors. The Domestic has many advantages over other machines. Among the many things that go to make the Domestic the leading machine in the market, the underbraider is one of the most important. As a braider, it excels all others; built into the machine, it is no attachment. The braid is put on the right side of the cloth, the pattern being stamped on the wrong side, enabling the operator to follow it readily, and is the only really practical braider in the market. The machine is made with a vibrating presser foot, which makes it very valuable in many other kinds of work. It is peculiar to the Domestic, being patented and controlled by the Domestic Company, and cannot be used by any others; it is in keeping with the Domestic, and makes the under braider machine superior to the plain machine. An examination will convince any and all of its superiority. There are many other points of superior to about this machine, of which we will speak in future issues.

JOHN F. FURRY

Exhibits a very neatly and well built express wagon in the extension gallery near the west end. The main feature of this wagon is in the construction of the running gear, which is built on a plan greatly improving on the old style. Mr. Furry's carriage and wagon factory, is located at 141 Third street, at which place he is doing a large business. He has built several wagons after his improved plan and in every case they have proven highly satisfactory. In order to appreciate his improvements, one must see and examine the vehicle now on exhibition at the pavilion.

G. SHINDLER & CO.,

The popular furniture manufacturers, make a display of very beautiful and costly furniture, which must be seen to be appreciated. They occupy a large space on the north side of the main gallery, near the west end of the pavilion.

CHAS. LOUIS KOHN,

Importer and manufacturer of billiard and pool tables, and agent for the celebrated Delaney patent steel spring cushions, makes an exhibit in the main hall on the first floor. He has displayed a very handsome table of his own manufacture, to which is fitted the Delaney cushions. These cushions are acknowledged by all the best players to be far superior to any others used. They are the most durable and accurate of any in use. The beautifully carved cue rack which he also displays is his own manufacture, and is a great credit to his skill as a workman. His exhibit is admired greatly by all visitors.

A. LOBE & CO.,

The popular crockery firm whose beautifully fitted store is located at 162 First, between Morrison and Yamhill, make a very attractive display near the main entrance to the pavilion. There is not another display in the pavilion which adds more to the attractiveness of the fair than Lobe & Co's. The samples of stock exhibited comprise every thing that goes to make a complete stock for a first-class crockery store. There are elegant China dinner sets, handsome decorated Barbotine and Royal Dresden vases, card receivers, Cloisonne plaques, Bisque statuary, Copeland tete-a-tete, etc., etc. This firm's business is growing very rapidly both on account of the splendid assortment always kept on hand and the elegant and superior quality of their goods, as well as the low prices at which they sell. It is no wonder that they are very popular. Every one visiting the pavilion should be sure to examine their exhibit, as it represents all that is new in the crockery line, and gives one an idea of what is newest and most fashionable.

THE ALBINA HOMESTEAD, of which the above is a complete plat, is situated next to Albina, and between and fronting on both the extension of Fourth street, East Portland, and the Vancouver road. All the lots in Blocks 26, 27, 28, 29 and 30 are 50x120 feet, with twenty-foot alleys through the blocks. All the other lots are 50x100 feet. The streets are wide and have all been cleared, while the lots are high and level and can be very easily cleared.

We now offer for sale for a short time a limited number of these Lots and Blocks at reasonable prices and on easy terms.

THE ALBINA HOMESTEAD is unquestionably the best field for investment and the most desirable place for location now in the market. Its close proximity to the cities of Portland and East Portland, and to the heavy improvements now being carried out by the various companies under the direction of Mr. Villard—the Dry Docks, Elevators, Machine Shops and other works of these companies—its nearness also to the Albina Ferry, together with the proposed Street Railway from L Street Ferry, in East Portland, will make this property very accessible from all parts of these cities. These advantages will necessarily attract a large population, and in the meantime make this the most popular and valuable suburban property in this vicinity, while in the near future it must furnish homes for the rapidly increasing population of Albina, and then its value will be at least five times what we now offer it for. We will show the property and give full information to all who may apply to us personally, and inquiries addressed to us by mail will receive prompt attention.

There is more anxiety to press tonnage on the market and the tendency of values is downward

Kansas Crops.

Plowing for winter wheat in Kansas is all done and a good deal of wheat has been sown this month The heavy crop of this year has been of excellent quality and will stimulate farmers to put in a large acreage.
